ABOUT ME

Aspiring Software Developer currently pursuing Data Science Engineering, skilled in Java, Data Structures & Algorithms (DSA), and problem-solving. Strong understanding of Object-Oriented Programming (OOPs), DBMS, Operating Systems, and SQL. Passionate about building scalable and user-focused applications with hands-on experience in web development technologies including HTML, CSS, JavaScript, and React. Eager to apply technical skills in a collaborative development environment and continuously grow as a developer.

EDUCATION

Bachelor of Computer Science, IES IPS Academy

Expected 2027

Higher Secondary, St. Mary's Co-Ed School

2021 - 2023

Activities and societies: Debates, Anchor, Inter-School Competitions, State-level competitions, Environment Minister

SKILLS

Programming	Java, DSA, OOPS, OS, DBMS, SQL, HTML, CSS, JavaScript
Content	Content Writing, Ideation, Research
Tools	Git, AI Tools, Prompt Engineering
Soft Skills	Teamwork, Problem-solving, Adaptability, Communication

COURSES & CERTIFICATIONS

March 2025

Java Programming for complete beginners Completed a 42-hour comprehensive course covering core Java programming concepts, object-oriented programming (OOP), exception handling, file operations, collections, and basic software development practices. Gained practical experience through hands-on coding exercises and projects. ([See here](#))

PROJECTS

DATA SIP – AI POWERED

Creating intelligent learning companions that adapt to individual needs, predict performance, and optimize learning paths using advanced data science techniques

Personalized Micro-Learning Platform

Languages – Java , Python 3.9+ , Html , CSS , JavaScript
